

Recommend EVERYDAY and SUNWEAR lenses to patients for the best comfort, convenience and experience.

**Transitions® DRIVEWEAR®**

Overcast

Behind The Windshield

Outdoors: Bright Light

***Recommend for patients who want:***

- Lenses that adapt to changing light to enhance visual performance, even behind the windshield of a car.
- Optimum color for driving in all daylight conditions
- Lenses are polarized to block blinding glare

**NUPOLAR®**

Without NuPolar lenses

With NuPolar lenses

***Recommend for patients who want:***

- The market leader in polarized Rx lenses
- A wide selection of lens colors and materials
- Excellent glare-blocking in all types of daylight

Transitions Drivewear and NuPolar lenses are not suitable for driving at night.

Drivewear and NuPolar are registered trademarks of Younger Optics.

**Transitions®**

ADAPTIVE LENSES

- Most balanced everyday adaptive lenses
- Fastest fade back speed
- Gray or brown color option

**Transitions® XTRActive™**

ADAPTIVE LENSES

- Superior darkness outdoors, even in hot temperatures
- Slight indoor tint
- Moderate activation behind the windshield

**Transitions® Vantage™**

ADAPTIVE LENSES

- Everyday lenses, virtually clear indoors and at night
- Darken and increase in polarization in bright light
- Glare is reduced, and outdoor vision is crisper

*Transitions, the swirl, and XTRActive are registered trademarks and Vantage and Transitions Adaptive Lenses are trademarks of Transitions Optical, Inc. Photochromic and polarization performance are influenced by temperature, UV exposure, and lens materials.*
